Introduction

According to Article 100-A of the Mexican Customs Law, the Tax Administration Service will authorize the registration of certified companies as **Authorized Economic Operators**, when in addition to complying with the requirements established by Mexican regulations; companies meet the minimum security standards, determined in the document entitled “Company’s Security Profile”. These standards are aligned with the SAFE Framework (Framework of Standards to Secure and Facilitate Global Trade) adopted by the World Customs Organization, in June 2005.

The SAFE Framework defines Mutual Recognition Arrangement, as an authorization granted by the Customs Administration of a country, that is recognized and accepted by another Customs Administration. It also states that in order for a system of mutual recognition to work it is essential that:

- Both AEO programs are compatible and follow the standards and principles set in the SAFE Framework.
- Each country has agreed on a set of standards and principles for Customs Administrations and for the AEO Programs as well.
- Standards are applied in a unified manner in order for Customs Administrations to have confidence in each other’s authorization.

The Mutual Recognition Arrangement between the Tax Administration Service and the Tax Authority of Israel was signed on April 1st 2019. Through this Arrangement both countries recognize their Authorized Economic Operator (AEO) programs.

Benefits

Benefits received under the Mutual Recognition Arrangement translate into a lower number of inspections during the customs clearance, and in case of inspections, certified AEO companies will have priority.

Requirements in order to receive benefits:

In order to receive the benefits from the AEO Program, Mexican importers will identify operations with suppliers who are certified as AEO. To carry out this process, Mexican importers must use the correct fields in the entry summary, according to the Annex 22, Appendix 8 (Entry Summary Guidelines) of the Mexican General Rules for Foreign Trade, as shown in the table below:

IDENTIFIER	LEVEL	CASES	Complement 1	Complement 2	Complement 3

Therefore, there are two different application cases to obtain the benefits:

- 1. When a Mexican company certified as AEO, performs an import operation and its supplier is an Israeli Company with an AEO certification.**
- 2. When a Mexican company without an AEO certification, performs an import operation and its supplier is an Israeli Company with an AEO certification.**

Case 1

In this case, the Mexican company with an AEO certification, importing goods from a Israel Supplier with an AEO certification, must fill in the field “DATOS DEL PROVEEDOR O COMPRADOR” (Supplier or Buyer information) section, with the following information:

- ✓ **TAX ID of the Supplier**
- ✓ **Company name**
- ✓ **Address**

As shown below:

DATOS DEL PROVEEDOR O COMPRADOR			
ID. FISCAL ILAE0000000	NOMBRE, DENOMINACIÓN O RAZON SOCIAL Dan pal Technical Plastic Products for Building & Industry	DOMICILIO: Kibbutz Dan, Upper Galilee, 1224500	VINCULACIÓN

Additionally, in section “KEY/COMPLEMENT IDENTIFIER”, the Mexican company must apply the identifier “**IC**”, which indicates that it is a certified Mexican company and in the section Complement 1, it must indicate the key “**L**” or “**O**” which means it is a certified company according to rule 3.8.1. paragraph L or rule 7.1.4. category AEO. In the second line, the Mexican company must apply the identifier “**OE**”, which means that its supplier is an Authorized Economic Operator (AEO) and the supplier is within a country that has signed a Mutual Recognition Arrangement with Mexico.

The next step is, in Complement 1, the Mexican company must indicate the **AEO Number** of the Israel Supplier, which must be provided by the supplier. In Complement 2, indicate the Key of the country of origin, in this case to Israel is **“ISR”**.

Examples:

1. Rule 3.8.1. category L (AEO):

DATOS DEL DESTINATARIO										
ID. FISCAL	NOMBRE, DENOMINACIÓN O RAZÓN SOCIAL				DOMICILIO:					
TRANSPORTE	IDENTIFICACIÓN:				PAÍS:					
NUMERO (GUIA/ORDEN EMBARQUE)/ID:

OBSERVACIONES										

Thus, the validation system of the operation in Mexico, will identify the information provided in the Entry Summary, it will recognize data and suppliers from AEO certified companies and the benefits will be granted under the Mutual Recognition Arrangement.

Case 2

In this case, the Mexican company without AEO certification, imports goods from an Israeli Company with an AEO certification. The Mexican company must fill in the “DATOS DEL PROVEEDOR O COMPRADOR” (Supplier or Buyer information) section, with the following information:

- ✓ **TAX ID of the Supplier**
- ✓ **Company name**
- ✓ **Address**

As shown below:

In the “CLAVE/COMPL. IDENTIFICADOR” section, the Mexican company must apply the identifier **“OE”**, which means that its supplier is an Authorized Economic Operator (AEO) and the supplier is within a country that has signed a Mutual Recognition Arrangement with Mexico. The next step is, in Complement 1, the Mexican company must indicate the **AEO Number** of the Israel Supplier, which must be provided by the supplier. In Complement 2 (next column), indicate the Key for the origin country of the supplier, in this case, for Israel it is **“ISR”**.

Thus, the validation system of the operation in Mexico will recognize the information provided in the Entry Summary by the AEO certified company and its suppliers and the benefits will be granted under the Mutual Recognition Arrangement.

Recommendations

It is important that Mexican companies who want to obtain the benefits under the Mutual Recognition Arrangement consider the following recommendations:

- If they are aware their suppliers have AEO certification and they are not receiving the benefits this might be due to the fact that they do not know how to make the request to receive it, therefore, you should ask to include the **AEO Number** in the shipment documentation.
- If the system shows an error, when validating the entry summary, this must be sent through the established procedure in order to get a proper response.
- When Mexican AEO companies do not have a certified AEO supplier, they must continue to use the identifier as they currently do.
